

added value

You've put a lot into making your home beautiful and keeping it in top condition. You can add to that investment with a structure from Sunrise. Not only will you increase your home and property's monetary value, you'll add to the beauty of your backyard as well. And it's hard to put a price tag on that.

store, work, play

A backyard structure has many uses. The obvious one is storing and protecting possessions like toys, bikes, ATVs, mowers, lawn and garden equipment and pool supplies. But the possibilities continue—why not use your backyard structure as a pottery or painting studio, a workshop, or even a home office? Let your imagination soar. Our sheds are available in a wide range of sizes and eye-catching styles.

unsurpassed service

You expect first-class service. You'll be happy to know that we've made customer service a number one priority since our founding. We walk you through the entire process, from your very first questions to the time your structure is delivered. We make the process both easy and fun during every step of planning, designing, choosing options and construction.

superior construction

A beautiful shed is great, but beauty must extend to the inside, too. We use only pressure-treated 4x4s that won't rot. Our vinyl siding is durable enough to carry a limited lifetime warranty. Smart panel siding comes with a 50-year limited warranty. And architectural shingles are available with 30-year and lifetime guarantees. But just as important, every component is measured, cut and assembled by skilled craftsman who are passionate about what they do. They won't accept second-best.

the cottage

The Cottage features classic styling. Place it anywhere in your backyard to add understated elegance—and much-needed storage.

customize your cottage

10' x 16' cottage | beige | white trim
dark blue shutters | 76" walls | 5/12 pitch roof
